INDUSTRY EVENTS

Dig Safe BC Workshop
March 3, 2009
Kelowna, BC

Dig Safe BC Workshop
April 1, 2009
Fort St. John, BC

Presented by BC One Call and BC Common Ground Alliance.

ACCIDENT FILES

February 3, 2009
Hamilton, ON

A major east-end thoroughfare was shut down for more than two hours after a gas crew ruptured a gas main. Emergency officials evacuated a shopping complex and several neighboring residences after a Union Gas crew doing routine maintenance ruptured the natural gas pipe. A gas company backhoe broke off a major valve on the 15-centimeter gas main, sending plumes of high pressure gas blasting into the air.

CATCH BASINS

Reminder: Prevent catch basin flooding from heavy rainfalls or snow and ice melt. Call or email Central HydroVac to schedule your maintenance.

DIG SAFE BC!
